

Wavehill specialises in **evidence based social research** and **evaluation**, and we work across the UK and in Europe.

We have **15 years experience** of working with national government, local authorities and strategic partnerships and the communities they serve.

Wavehill has offices in London and west Wales, and a track record of working with regeneration organisations and communities in both rural and urban areas.

We have a **team of 22** researchers, consultants, and support staff including a highly experienced in-house interview team who can deliver surveys in both Welsh and English

## SPECIALISTS IN REGENERATION

Wavehill Consulting is recognised as specialists in the field of regeneration. Our in-depth knowledge and experience within the regeneration sector is well proven by our unrivalled track record. Wavehill understands that regeneration involves developing people, developing physical infrastructure and stimulating enterprise, we have extensive experience in each of these areas ranging from the impact of the new Wembley Stadium, labour market interventions and evaluation of enterprise development schemes.

## ENGAGING THE COMMUNITY IN THE REGENERATION PROCESS

Wavehill have recently been appointed by Lancashire based strategic land company, Ainscough-Johnston to lead the community engagement process for the regeneration of the 40-acre former **Dolgarrog Aluminium factory** in the Conwy valley which will be undergoing a multi-million pound investment programme.

The approach being used includes training the community themselves to play a leading role in the consultation process; an approach championed by Wavehill and previously used in support of Welsh Assembly Government regeneration activities in South Ceredigion, Colwyn Bay and Rhyl.

## Wembley Stadium Partnership

*"Their work has been immensely valuable both in highlighting the real achievements of the programme and in their recommendations for our forward strategy"*

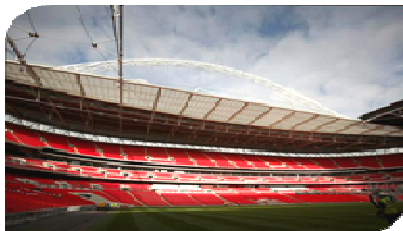

## Our Recent Projects

- An evaluation of a programme of over 60 projects for AvenCentral Regeneration Partnership
- Evaluation of the West Redcar 'Pathways to Inclusion' for Redcar and Cleveland Borough Council
- An evaluation to determine the overall achievement of the 'Building Bridges' programme for Barrow Borough Council
- An evaluation of the Mansfield Diamond Partnership SRB1 and SRB4 programmes for the Bolsover Local Strategic Partnership
- A commission to undertake a final evaluation of the high profile £25m Carmarthenshire Physical Regeneration programme

## MEASURING THE IMPACT OF REGENERATION

Much of Wavehill's work is associated with evaluating and measuring the impact of regeneration activities. We have recently been commissioned by the Welsh Assembly Government to undertake a comprehensive survey of residents, businesses and community groups in the **Aberystwyth** region that will be used as a baseline against which to measure the impact of future regeneration activities.

Wavehill also evaluated the success and regeneration impacts of the **Wembley Stadium** development, taking into consideration the impact of the much publicised stadium delays for the London Borough of Brent.

## WAVEHILL UPDATE

We have recently launched our **new bilingual website** with up-to-date news and information on our services and area of expertise.

We are also pleased to have **Endaf Griffiths, a new senior consultant**, join us with 11 years of experience in the field of economic development and regeneration.

Our **survey and research team** has increased to 12 members and continues to **raise the standard of our evidence-based research.**
